2. Your assistance in evaluating the anticipated proposal in response to the RFP is solicited. It is requested that this evaluation be performed by a member of your Branch deemed most knowledgeable in the fields of laser and color physics.

3. To aid the designated appraiser in performing his objective evaluation, pertinent references have been assembled in the attached folder. Evaluation of this sole-source proposal should be made on the basis of feasibility of the concept, technical capability of the bidder and price realism. In lieu of the commonly used Evaluation Work Sheet, a hand-written memorandum will be all that is required. The proposal will be delivered to the appraiser by the assigned Project Monitor [REDACTED] when received.
